President Andrew Hamilton  
Office of the President  
New York University  
70 Washington Square South  
New York, NY 10012

[VIA EMAIL]

July 7<sup>th</sup>, 2021

Dear President Andrew Hamilton,

**We are writing to deliver a petition, attached to this letter, signed by 1,133 people urging you to stop racial profiling Asian American and immigrant professors at New York University (NYU) and protect their rights to due process.**

Two tenured professors of Asian ancestry at the NYU Grossman School of Medicine are facing unjust termination due to the National Institute of Health (NIH) investigations related to the Justice Department's "China Initiative," a discriminatory initiative launched under the Trump Administration. Under this initiative, the federal agencies such as the FBI and NIH have pressured NYU into profiling Asian Americans and Asian immigrants. The result is the ruined careers and lives of NYU professors.

We urge NYU to:

- Immediately stop the racial profiling of Asian American and immigrant faculty members and to protect their rights to full due process;
- Reinstatement of the due process protections to School of Medicine medical professors that had been in place for all NYU faculty members since the 1980s so they may fight the injustices properly;
- Minimize entanglements with law enforcement and the FBI; and
- Provide clear, updated guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest forms. Professors and researchers should have the opportunity to correct their forms without devastating employment consequences such as suspension and termination.

As a university of international standing, NYU prides itself on its diverse faculty, significant international student population, and extensive global network. It maintains two

degree-granting institutions outside the United States, one in China and one in the UAE. The university administration should not be caving to Trump-era racist policies by targeting scientists, researchers, and scholars based on their race, ethnicity, or ancestry. This contradicts NYU's overall mission of global research, teaching, and scholarly collaboration.

Universities such as NYU have encouraged international academic collaborations and transnational research initiatives, including with universities in China. As the corresponding guidelines surrounding international collaboration and disclosures change, the university ought not be criminalizing past behaviors that they often encouraged. NYU should stand up for its faculty and contest federal government overreach, rather than serving its faculty up on platters.

Racial profiling is not only morally wrong, it is an ineffective weapon often wielded for malicious intent. We urge NYU to uphold its institution's values, live up to our nation's democratic ideals, and stand up in the face of injustice.

You can view each petition signer and the comments they left you below.

Thank you,

Asian Americans Advancing Justice | AAJC

Graduate Student Organizing Committee (GSOC-UAW Local 2110)

The dark history of American Chinese profiling got an unfortunate boost under Trump. It continues unabated. China too often has been a bad actor and this hasn't helped. But China has not caused our racism. Americans have. And it is we who must take responsibility and eliminate it. Chinese in America, all Asians, have suffered enough.

We urge NYU to:

- Immediately stop the racial profiling of Asian American and immigrant faculty members and to protect their rights to full due process;
- Reinstate the due process protections to School of Medicine medical professors that had been in place for all NYU faculty members since the 1980s so they may fight the injustices properly;
- Minimize entanglements with law enforcement and the FBI; and
- Provide clear, updated guidelines and instructions regarding grant application requirements, disclosures and conflicts of interest forms. Professors and researchers should have the opportunity to correct their forms without devastating employment consequences such as suspension and termination.

**388. Hersin Magante** (*ZIP code: 90068*)

As a Silver School of SW Alumni I am in disbelief that this is happening at NYU. We aren't getting better but worse. The former US President is no longer in office, however his policies and those of his political supporters, continue to support white supremacy. This is unacceptable.

History repeating itself in the year 2021. The government scapegoating Asians for multiple years based on the US history of the Chinese Exclusion Act and the Japanese Internment are alive and well again in the US. And let's not forget how Trump identified Covid 19 as the Chinese virus and Kung Flu virus.

Not even twenty years after the federal government deployed a racist, civil liberty violating dragnet of Muslim Americans after 9/11, we're seeing the same unaccountable agencies deployed against Chinese and Chinese-American scholars.

Under Andrew Hamilton's leadership, NYU has profited enormously from its deep economic ties to China, and should know better than to allow a precedent for such blatant, dangerous cold-war era dragnet tactics by the federal government.

Given clear instructions on international collaboration, most Asian born professors will follow them carefully and there is never any valid proof that they intended to violate any internationally collaboration guidelines. In the past, such guidelines had been loosely written. Persecuting Asian born professors retroactively is clearly a violation of their civil right and due process.
