Caring for Our Community — Resources for Family of Victims, Community Members, and Allies of Monterey Park and Half Moon Bay Shootings (Last Updated 2/1/2023)

How to Respond: Monterey Park and Half Moon Bay

For many, Lunar New Year and the days that follow were meant to be a time filled with celebration, joy, and community. Instead, we mourn the lives lost and many injured following the tragic shootings in Monterey Park and Half Moon Bay. We are still processing and grieving, all in different ways, but the impact is clear, and it remains consistent: our community, especially those most vulnerable, is being retraumatized as they continue to be targeted by hate and violence.
We are sad. We are angry. We are scared.

As we grapple with the tragedies that unfolded this week and search for answers, our community is coming together to show what solidarity and collective care look like. Below is a list of resources on how to get involved, access help, and support our community.
